

World Architecture Festival 2009 – overall winners

World Building of the Year 2009

Mapungubwe Interpretation Centre, South Africa, designed by Peter Rich Architects, South Africa

Situated at the confluence of the Limpopo and Shashe rivers, is designed to house artifacts from the region's prehistory. The project is underpinned by a strong social programme, using the skills and labour of local people and involving them in the design and construction process.

Structural Design of the Year

Arena Zagreb, in Croatia designed by Upi-2m, Croatia

An eight storey terminal in the heart of Zagreb, with partly translucent walls, provides for Zagreb's emergency medical assistance institute

Interior Design of the Year

Corian's Super Surface Showroom in Milan, designed by Amanda Leveté Architects, London

Created for the Milan Design Week 2009 to demonstrate Corian® Super Surfaces material for multiple contexts

Future Project of the Year

The Spanish Pavilion for the 2010 Expo in Shanghai, designed by Miralles Tagliabue Embt of Spain

Large patios, in the form of different coloured wicker baskets, compose the pavilion which is an exhibition

/contd....
