Greekarchitects.gr media partners of 2010 World Architecture Festival in Greece.

WAF is an annual international event to reward excellence in a fully interactive inclusive live format.

The 2010 World Architecture Festival thematic exhibition will be based on the theme of 'Transformations'. The 2010 theme will relate to the way in which the built environment can be transformed by a combination of client commitment, architectural imagination, technological development and professional teamwork.

The exhibition theme will feed into the WAF seminar programme and keynote addresses from leading contemporary architects. **WAF 2010 will take place in the CCIB in Barcelona from 3-5 November 2010.**
